

WHAT WE DO

TrustLaw is the Thomson Reuters Foundation's global pro bono legal service.

We connect the world's leading legal teams with high-impact NGOs and social enterprises working to create social change.

We help produce groundbreaking legal research and offer innovative training courses worldwide

WHY TRUSTLAW

We help NGOs and social enterprises focus on their mission instead of spending their resources on legal needs.

Our research programmes are powerful advocacy tools that enable our members to improve legal and policy frameworks around the world.
