

ARE YOU A SECURITY SUPERHERO?

Hacking. Phishing. Tax fraud. The bad guys are out there, and it doesn't matter if you're a multinational corporation or a mom-and-pop shop — if you're in business, you're a target.

But don't despair! A couple of small steps to secure your clients' data now can make the difference between becoming a victim of fraud — or standing strong as your clients' security superhero.

THE VILLAINOUS TRUTH

1 in 40 small businesses are at risk of being the victim of a cyber crime.

Source: Symantec Internet Security Threat Report: April, 2016

80% of data breaches could have been prevented by multi-factor authentication.

AUTHENTICATOR TO THE RESCUE!

Thomson Reuters Authenticator uses multi-factor authentication, which grants a user access only after successfully presenting two of the three following methods of confirmation:

-  Something **YOU KNOW**
Ex: Password
-  Something **YOU HAVE**
Ex: Smartphone
-  Something **YOU ARE**
Ex: Fingerprint

EVER VIGILANT, EVER STRONG

Stand strong as your clients' first line of defense against tax fraud. See how you can team up with Authenticator to protect your clients' data at tmsnrt.rs/2QrR7P0
