Introducing Firm Central
Practice management software for solo and small firms
Industry-leading connectivity, mobility, and efficiency – all affordably priced.

Firm Central lets you accomplish more for your clients with less effort and stress.

Integrated, secure, and mobile practice management.

Firm Central is the only cloud-based practice management software for solo and small law firms that allows you to fully integrate with legal research and your other essential practice tools.

Get the big picture on a single screen.

Imagine that a former client calls to ask about his year-old matter. How do you instantaneously refresh your memory to respond knowledgeably? With Firm Central, you can immediately see all the work you've done for your client, plus notes, links, events, billing, research, and more. Firm Central's comprehensive view works just as well when you want to monitor the progress of a current matter, bring a colleague up to speed, or repurpose a work product.

Share information and collaborate with clients.

The **Client Portal** allows you to securely share messages, documents, forms, invoices, and other case details with your clients.

Retrace your steps and resume work with ease.

When appointments, emails, phone calls, and other interruptions break your concentration, **Recent Activity** on the homepage and **Recent Documents** on a Matter page get you back on track quickly.

Click a tab and zero in.

When you know the type of content you need, the **Matters, Contacts, Billing, Documents, and Calendar** tabs will deliver it in a flash.

Time & Billing

Time & Billing helps you effortlessly track time and expenses, create well-documented invoices, create and manage trust accounts, and generate reports.

Save time but still find everything.

Firm Central's **Global Search** bridges the gaps among various types of information, delivering complete results with a single query, including documents, notes, research, calendars, and more.

Automate your litigation calendar.

Deadline Assistant will automatically calculate and keep track of court deadlines and sync with your Firm Central and Outlook calendars. Share important dates with your entire team.

Never forget a task.

Your **tasks** and **notifications** are displayed prominently, so you won't overlook anything.

Be "in the office" even when you aren't.

Firm Central synchronizes your firm's data, so you can see the same information whether you're using your desktop computer, laptop, tablet, or smartphone. It's all current and complete – right down to the automatically updated KeyCite flags.

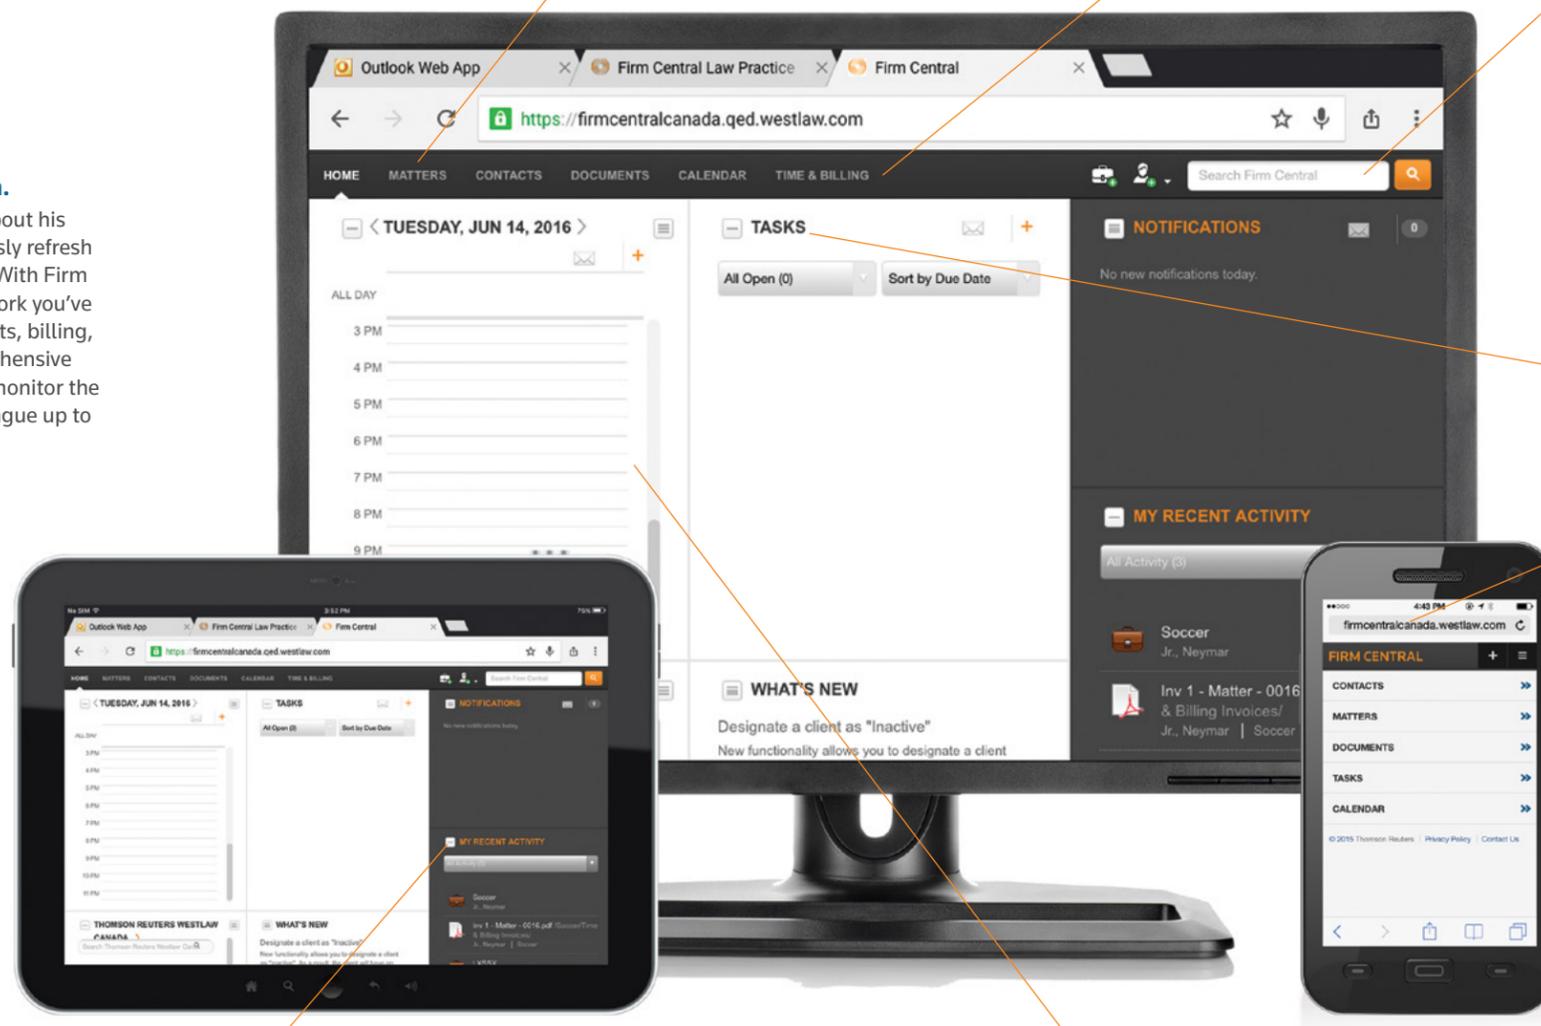

The new centre of your firm's workday.

Firm Central from Thomson Reuters eliminates everyday practice-management problems for solo and small firms. It offers you:

- **Security** – State-of-the-art security, without the technology headache
- **Efficiency** – Information you can find fast and share easily
- **Mobility** – 24/7 access from anywhere you have internet service
- **Connectivity** – Seamless integration with tools that are designed to work together
